

Jayne Hamparsum Design

Hospitality & Residential Interior Design

Jayne Hamparsum Design is an independent interior design consultancy with over 19 years of specialised experience in Australia and abroad. We have been involved with a variety of high-profile 5 star luxury hotels, residential developments, serviced apartments, through to 3 star hotels and holiday accommodation ranging from new build to refurbishments.

“Delivering leading-edge, designed environments with their own personality that maximise impact and pay back every dollar spent on fit-out”

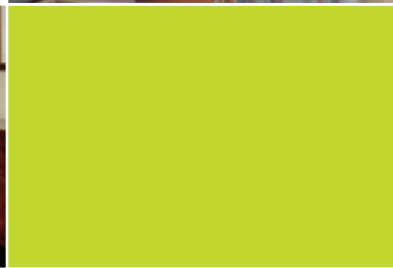

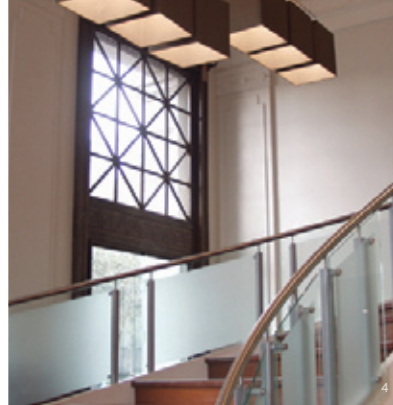

JHD offers a total approach to interior design, covering internal architectural planning, specification and documentation, procurement and project management services through a single point of contact.

Our individual designs create their own personality, with a tendency towards luxury and fantasy, while remaining focussed on practicality and budget. We incorporate the latest technology, finishes and materials

available to provide your guest with something out of the ordinary.

JHD understand that creating economically viable design solutions is critical to the overall success of any project. Tourism and hospitality are rapidly becoming the number one industry in the world and the business of creating an escapist environment is proving more lucrative than ever before.

When it comes to hospitality we can provide many design solutions for creating the theatre and drama required in these new escapist environments.

Let us help you find the confidence to be more adventurous and in doing so your guests will find a unique experience they will never want to leave.
